## Solar Impulse Foundation

### 1000+ profitable solutions to protect the environment

To address environmental challenges without compromising economic growth, Bertrand Piccard and the Solar Impulse Foundation have identified 1000+ clean and profitable solutions. Thanks to a rigorous evaluation process, the "Solar Impulse Efficient Solution" Label is the only evaluation that guarantees the economic profitability of products and processes that protect the environment. Considered a recognition for innovators and a credible trademark of quality for governments and companies, it enables decision-makers to find efficient solutions to meet their environmental commitments.

## Impact Hub Switzerland

### #StrongerTogether

Local Innovation with a National Community

The nationwide community, consisting of approximately 2,000 members, comprises entrepreneurs, creatives, and tech enthusiasts who can benefit from the Impact Hub innovation network's collaboration across Switzerland. The activities focus on entrepreneurship, sustainable development with an emphasis on climate and circular economy, as well as innovation, diversity, and new forms of work.

Current joint projects of Impact Hub Switzerland include the incubation program of the "Circular Economy Transition" (CET) initiative for circular entrepreneurs
